

MICHAEL WILSON  
DIAMOND JEWELLERS

*Natural Argyle pink diamonds  
make a truly exclusive gift that  
goes beyond all expectations*

### Argyle pink diamonds

These extremely rare diamonds are some of the most sought after in the world. The Argyle Diamond mine in Western Australia that produces the coveted pink diamonds has confirmed that the mine is likely to close by the end of 2020. With Argyle announcing closing dates of the mine we are going a little crazy sourcing these incredible Australian diamonds before they're all gone!

Over the past 20 years the price of Argyle pink diamonds has increased by 500%, and every year increased by double digits, a significantly higher return than the stock market. Once the mine closes the value of these stones is expected to increase even more dramatically.

With figures like this it is no wonder that we are seeing a huge increase in investments of these rare Australian diamonds.

Aaron Wilson has great relationships and access to incredible Argyle Pink Diamonds including tender and Collector's Edition sets. If you have ever dreamed of owning an Australian Argyle diamond, for either personal wear or investment, we have direct access to incredible stones.

If you would like to arrange a private viewing please contact Aaron Wilson at [aaron@michaelwilson.com.au](mailto:aaron@michaelwilson.com.au)
