MEASURING YOUR RING SIZE

The best way to accurately measure your finger size is to visit your local jeweller and measure using a ring of similar width and profile to the one you wish to purchase.

IMPORTANT!!

- Before printing this page please ensure that page scaling is set to 'none' in the printing options.
- Measure the line to the left to make sure the page has been printed at the correct scale.

MEASURING FROM A CURRENT RING

1. The ring you measure must fit the correct finger.
2. Your dominant hand is usually slightly larger than the other.
3. A wide ring will usually fit firmer than a narrow ring.
4. Place the ring over the below circles, matching the black circle to the inside edge of the ring.
5. If the ring falls between 2 sizes then select the larger size.
6. Measurements given are for the inside diameter of the ring.
7. Please use the letter size when ordering.
